

Dirty Dog Doormat

Protect your floors, furniture and car seats from unwanted hair, dirt and slobber. The Dirty Dog Doormat soaks up mud and dirt, so the mess stays in the mat and doesn't get carried into the house. This super absorbent mat holds up to seven times its weight in water and mud, and the plush and velvety material is soft on pets' paws while they're being their lovable, messy selves. The secret is advanced microfiber technology that traps water, mud and dirt instantly. Millions of soft microfiber strands create an extra-large super-sponge so your floors stay clean and dry.

Unlike competing products, the Dirty Dog Doormat uses double basting even stitching that makes it a more durable product that won't come unraveled by use or washing. Also unlike competitors, it has a heavy "gripper" non-skid backing to prevent it from skidding or moving. This easy-to-clean, machine-washable doormat dries five times faster than ordinary door mats.

Key Benefits

- Versatile mat can be used in cars, crates and under food and water bowls. Non-skid backing helps it stay in place.
- Magically soaks up water, mud and dirt.
- Holds up to seven times its weight
- Highest absorbency density rate of competing products
- Plush and velvety material is soft on pets' paws
- Machine washable and dries five times faster than ordinary door mats.
